Members Present: Mike Blessum, Rob Fuller, Mark Jantzer, Lisa Olson, Paul Pitner, Scott Samuelson

Members Absent: None

CIP WORKSHOP - PRESENTATION AND DISCUSSION OF THE CAPITAL IMPROVEMENT PLAN

Lance Meyer, City Engineer, provided the City Council of a brief overview of the Capital Improvement Plan. His presentation is attached to the agenda. All departments discussed their individual projects that are in the Capital Improvement Plan. The City Council had a consensus to work collaboratively with the Fire Department projects to see if the Police Department can utilize space if a new Fire Station is developed on the south side of town. Also, decreasing the Waste Water Treatment Plant amount to the cost of a study, until the need to look further into the project persists. There was no formal business done during the workshop. The Capital Improvement Plan will be brought to City Council for a public hearing at a future meeting.

The meeting adjourned at 4:13 pm.
